LATEST 500 STEPS (4,510–5,000)

Total loss

Video loss

Action loss

Faint lines: raw values sampled every 10 steps. Bold lines: trailing 100-step mean (same smoothing for both runs).

NPU: TensorBoard events (verified against CSV). A100: archived CSV from the same callback; original events unavailable. Snapshot: 2026-11-08T11:35:38 UTC.

Complete training-loss comparison. Compile: A100 on / NPU off. Engineering loss gates are separate from downstream task quality.
